The Virtual Tennis Tour is a fantasy game based on the wonderful world of tennis, both men's and women's tours, based on the ability to guess as many outcomes as possible of the matches proposed in each day of competition by the organizers. Every result guessed gives you some points. The game is structured similarly to the real ATP tennis circuit. In fact, to become number one you must progress within the rankings, by starting with the lowest prize tournaments until you get to play in the Grand Slam tournaments. In practice, your virtual player has a real career that depends on your skills. Lose no time, join us immediately!!
